UP CLOSE...

Peter loves spending time with his wife Sylvia and their two children, enjoying good wine, and is a big fan of cars and motorsports. He also loves his soccer, and is a member of the Western Sydney Wanderers Football Club.

Peter is a highly skilled security professional, with **more than 46 years experience in the industry**, having started out as a guard and worked his way right up to CEO.

He began his career as a fitter and turner for a decade while also volunteering with the NSW Rural Fire Service, before a firefighting injury forced a career change. He offered to help out a friend who owned a security company by working as a guard one day a week. That quickly turned into a full time job, which has **led to a more than four decade-long dedicated career in security**.

Over the years he has worked in top level control rooms as supervisor and manager, and has also held COO, CEO, National Bureau Manager and State Manager positions, while also working as General Manager for several companies. He has **led many complex and major security projects, including the Solar Farms in Balranald in Southern New South Wales, and the Sydney Light Rail project from start to finish**.

Throughout his five years working at Ozland Group Solutions, he has been General Manager, COO and now Group Chief Customer Relations Manager, and **he has been pivotal in building the business and growing the team to what it is today**.

Peter holds security licences in New South Wales, Queensland and holds a WA Security Agent Licence.

He is a member of the ASIAL and has also been a delegate on several ASIAL working groups over the years.

As a leader, Peter sees himself more as a coach, and he strongly believes in empowering others and helping them to be the best they can be, which in turn leads to a stronger team. He's highly regarded and **well trusted in the industry, and prides himself on always being available 24/7 for his clients.** This level of availability has seen clients stick with him for many years.

“I’m constantly driven by putting a new deal together and winning the work – I love the chase and the satisfaction of a happy client.”
